POOL REPAIRS

Unfortunately, our community pool was closed for the last couple weeks during the month of May when the pool pump went. The replacement part was not readily available, so we had no other option than to wait while the part was manufactured & shipped to The Woods. We were given an estimated delivery date of May 24th, which would give us just enough time to reassemble & install the pump, then clean and run the chemicals through before it could re-open.
